ABOUT ADVANCED SURGICAL DESIGN AND MANUFACTURE

ASDM designs and manufactures medical devices. Its principal product is the Active Knee, a prosthetic implant of which more than 3,500 have been implanted. This product is supported by a range of Orthopaedic accessories and surgical tools and other Orthopaedic products.

ASDM provides a highly effective integrated service to surgeons building on its strengths in design and engineering. Core capabilities that underpin this service are integrated design and engineering, regulatory/compliance competency, manufacturing, distribution and customer service.

The company has built an extensive patent and product development portfolio through collaborative research relationships with universities, companies and surgeon inventors that extends beyond orthopaedics. These collaborations are yielding promising projects in several specialities with strong prospects for commercialisation over the next few years.
