ABOUT ALLEGRA ORTHOPAEDICS

Allegra Orthopaedics’ focus is to deliver responsive customer service through our extensive capabilities. Our goal is to build a strong and profitable medical company.

Our principal product is the Active Total Knee, which has significantly improved the quality of life for people globally.

We also exclusively distribute ArthroSurface, Inc range of implantable orthopaedic devices.

Allegra Orthopaedics is the global licensee to a composite biocompatible ceramic material known as Sr-HT-Gahnite from The University of Sydney for veterinary and orthopaedic solutions. In preliminary studies, Sr-HT-Gahnite has duplicated the mechanical strength of bone and pre-clinical studies currently being performed indicate good bioactivity and ingrowth of bone into the synthetic scaffold prepared from this ceramic material.

Allegra Orthopaedics Limited

Importantly, it is 100 times mechanically stronger than synthetic bone substitute materials in clinical use.

The company continues to build upon its extensive patent and product development portfolio. We have extensive research relationships with universities, companies and surgeon inventors. Our partnerships are building innovative products which will deliver significant shareholder wealth.
