

Corporate Governance Statement 26 August 2022

This Corporate Governance Statement of Allegra Orthopaedics Limited (the 'Company') has been prepared in accordance with the 4th Edition of the Australian Securities Exchange's ('ASX') Corporate Governance Principles and Recommendations of the ASX Corporate Governance Council ('ASX Principles and Recommendations').

The Recommendations are guidelines and not prescriptions. The Council recognises that the range in size and diversity of companies is significant and that smaller companies from the outset may face particular issues in following all the Recommendations. If a company considers that a Recommendation is inappropriate to its particular circumstances, it has the flexibility not to adopt it.

The Board has adopted the best practice Recommendations as outlined by the Council to the extent that is deemed appropriate considering the current size and operations of the Company. Therefore, where the Board considers that the cost of implementing a recommendation outweighs any potential benefit, that Recommendation has not been adopted.

This statement has been approved by the Company's Board of Directors ('Board') and is current as at 26 August 2022.

The ASX Principles and Recommendations and the Company's response as to how and whether it follows those recommendations are set out below.

Corporate Governance policy documents are available on the Company's website at www.allegraorthopaedics.com/corporate-governance.

Principle 1: Lay solid foundations for management and oversight

Recommendation 1.1 - A listed entity should have and disclose a board charter setting out: (a) the respective roles and responsibilities of its board and management; and (b) those matters expressly reserved to the board and those delegated to management.

The Board's primary role is the protection and enhancement of long-term shareholder value. The Board is ultimately accountable for the performance of the Company and provides leadership and sets the strategic objectives of the Company. It appoints all senior executives and assesses their performance on at least an annual basis. It is responsible for overseeing all corporate reporting systems, remuneration frameworks, governance issues, and stakeholder communications. Decisions reserved for the Board relate to those that have a fundamental impact on the Company.

The Board's roles and responsibilities include formulating the Company's strategic direction, approving and monitoring capital expenditure, setting remuneration policies, appointing, removing and creating succession policies for Directors and senior executives, establishing and monitoring the achievement of management's goals and ensuring the integrity of internal control and management of information systems. The Board is also responsible for approving and monitoring financial, risk and other reporting.

Management is responsible for implementing Board strategy, day-to-day operational aspects, and ensuring that all risks and performance issues are brought to the Board's attention. Management must operate within the risk and authorisation parameters set by the Board. The Company's Board Charter is available on the Company's website.

Recommendation 1.2 - A listed entity should: (a) undertake appropriate checks before appointing a director or senior executive, or putting someone forward to for election as a director; and (b) provide security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director.

The Company undertakes comprehensive reference checks prior to appointing a Director or senior executive or putting that person forward as a candidate to ensure that person is competent, experienced, and would not be impaired in any way from undertaking the duties of Director. An election of Directors is held each year. A Director that has been appointed during the year must stand for election at the next Annual General Meeting ('AGM'). Directors are appointed for a maximum term of three years. Retiring Directors are not automatically re-appointed. The Company provides to shareholders in the Notice of AGM, relevant information for their consideration about the attributes of candidates together with whether the Board supports their appointment or re-election.

The Board's Charter more fully sets out the specific responsibilities of the Board. Corporate expectations are set out in the Directors' letters of appointment.

Recommendation 1.3 - A listed entity should have a written agreement with each director and senior executive setting out the terms of their appointment.

The terms of the appointment of a Non-Executive Directors are set out in writing and cover matters such as the term of

Corporate Governance Statement 26 August 2022

appointment, time commitment envisaged, required committee work and other special duties, requirements to disclose their relevant interests which may affect independence, corporate policies and procedures, indemnities, and remuneration entitlements.

Executive Directors and senior executives are issued with service contracts which detail the above matters as well as the person or body to whom they report, the circumstances in which their service may be terminated (with or without notice), and any entitlements upon termination.

Recommendation 1.4 - The company secretary of a listed entity should be accountable directly to the board, through the chair, on all matters to do with the proper functioning of the board.

The Company Secretary reports directly to the Board through the Chair and is accessible to all Directors.

Recommendation 1.5 - A listed entity should (a) have and disclose a diversity policy (b) through its board or a committee of the board to set measurable objectives for achieving gender diversity in the composition of its board, senior executives and workforce generally; and (c) disclose in relation to each reporting period: (1) the measurable objectives set for that period to achieve gender diversity; (2) the entity's progress towards achieving those objectives; and (3) either: (A) the respective proportions of men and women on the Board, in senior executive positions and across the whole workforce (including how the entity has defined "senior executive" for these purposes); or (B) if the entity is a "relevant employer" under the Workplace Gender Equality Act, the entity's most recent "Gender Equality Indicators", as defined in and published under that Act.

If the entity was in the S&P / ASX 300 Index at the commencement of the reporting period, the measurable objective for achieving gender diversity in the composition of its board should be to have not less than 30% of its directors of each gender within a specified period.

The Board recognises the value and importance of diversity, including with respect to gender, ethnicity, geographical location, personal attributes and age. The Company has a Diversity Policy (a copy of which is available on the Company website under 'Corporate Governance') which requires the Board to set measurable objectives for achieving gender diversity and to assess the objectives and the Company's progress towards achieving them on an annual basis. The Diversity Policy aims to provide a work environment where employees have equal access to career opportunities, training and benefits. It also aims to ensure that employees are treated with fairness and respect, and are not judged by unlawful or irrelevant reference to gender, age, ethnicity, race, cultural background, disability, religion, sexual orientation or caring responsibilities. This commitment enables the Company to attract and retain employees with the best skills and abilities.

At the beginning of the financial year over half of the employees of the Company were women and the only senior executive was a woman. By year's end the proportion of women employees in the Company and in senior executive positions remained at a similar proportion. Accordingly, the Company's objective for the year of maintaining the existing proportion (approximately half women) of gender balance within the organisation and at employee and senior executive level (other than at Board level) has been achieved.

There are currently:

- No female Directors (of three) on the Board; and
- One female senior executive (of one); and
- Ten female employees (of fourteen).

There are currently no women on the Board but the process to identify an appropriate candidate for appointment to the Board will provide an opportunity for a suitably qualified woman to be appointed. There is no gender disparity in the level of remuneration paid. The Board considers that its existing policies are appropriate at this stage in the Company's development and that any increase in the proportion of women at all levels of the work force is dependent upon the extent to which vacancies occur in the existing work force and any change in the size of the work force. The gender balance will continue to be monitored with a view to maintaining the existing proportions and reassessing as circumstances warrant. This forms a KPI for the Board, Chief Executive Officer and senior executives.

No entity within the consolidated entity is a 'relevant employer' for the purposes of the Workplace Gender Equality Act 2012 and therefore no Gender Equality Indicators to be disclosed.

Recommendation 1.6 - A listed entity should (a) have and disclose a process for periodically evaluating the performance of the Board, its committees and individual directors; and (b) disclose for each reporting period, whether a performance evaluation has been undertaken during or in accordance with that process during or in respect of that period.

Corporate Governance Statement 26 August 2022

The Board, through the Nomination and Remuneration Committee, has established performance criteria for the Chief Executive Officer ('CEO') and has conducted a performance review of the CEO for the reporting period in accordance with its standard practice. However, the individual Directors and the Board as a whole recognise the importance for the Board to have the skills, knowledge, experience and diversity of background required to effectively steer the Company over time in response to market developments, opportunities and challenges. The Board recognises certain core skills that are required for the Board to ensure effective stewardship of the Company. These include business and strategic expertise, experience with financial markets, industry knowledge, accounting and finance skills, project management experience and personal ethics, attributes and skills.
